

AMENDMENTS TO THE SPECIFICATION:

Please replace the paragraph one page 5, line 36-page 6, line 9 with the following amended paragraph:

The cavity 20 is ~~provides~~provided at an outer top surface with a waveguide 21 in order to guide microwave generated at a magnetron toward the cavity 20. A motor 22 is provided at an outlet of the waveguide 21 to drive a stirrer fan. The stirrer fan as it rotates distributes the microwave uniformly about the cavity 20. The waveguide 21 is also provided at an outer bottom surface of the cavity 20 as well as the outer top surface, such that the microwave can be guided both in downward and upward directions, thereby evenly cooking the food.
